ABOUT US

Made in the USA

Lacerta Group, LLC is committed to reinvesting in the latest thermoforming technology. Today we have five high-capacity extrusion lines and 48 state-of-the-art thermoformer lines, many of which support robotic automation. The company has also invested in technology to further our sustainability efforts. Our specialized units enable plastic recycling by reusing materials that would have been previously discarded. We've also adopted a cutting-edge life cycle assessment (LCA) tool to determine the environmental impact of our products.

Headquartered in Mansfield, Massachusetts, Lacerta operates seven facilities in the United States: four in Mansfield, one in Chatsworth, California, one in Attleboro, MA, and one in Portage, Wisconsin. Lacerta, founded by the Lotfi family, became a portfolio company of SK Capital Partners in 2020.
